Caption Editor

The Caption Editor page allows presenters and global caption editors to review and edit captions that were created automatically by TechSmith Relay. When a presentation is held for caption editing, all processing and publishing is stopped until the presenter releases the presentation to complete processing and publishing.

Users can only access the Caption Editor page if they have a presentation that is being held for caption editing.

> Microsoft Silverlight is required to edit captions. The website prompts you if installation of or an update to Silverlight is required.

Caption Editing Tips

Here are some tips to help you when editing captions:

▶ To stop at the end of each caption, disable the Continuous Playback button 🔄.

▶ While working in a caption, click **Replay** to repeat the text of the selected caption once. Repeatedly click the **Replay** button until you are able to transcribe the entire caption.

▶ The number in the lower right of a caption shows the remaining characters available to keep the caption within compliancy guidelines. If a caption is too long, it turns yellow and shows a negative number of characters available.

▶ Click the **Split** button to separate a caption into two smaller captions.
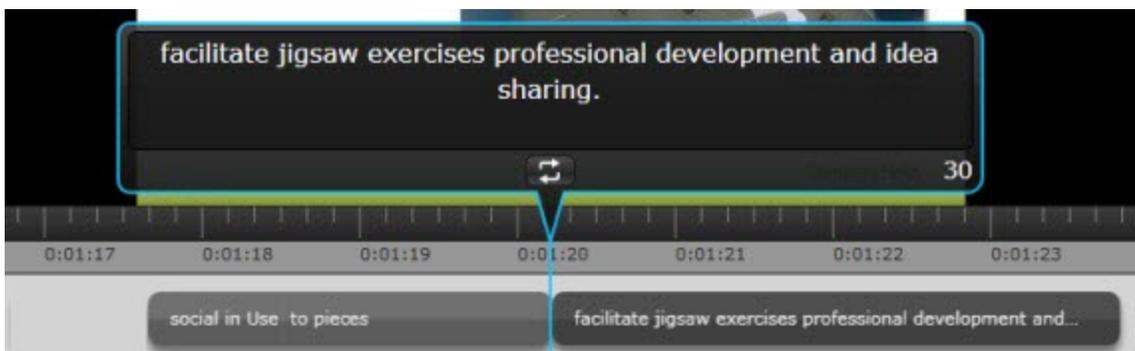

▶ Use the standard keyboard shortcuts for Undo (**CTRL+Z**, **Command+Z**) and Redo (**CTRL+Y**, **Command+Y**) to undo or redo your actions in the caption editor.
